

We will build  
your members  
website for FREE

## YOUR DIGITAL ACCESS

### Who

We are KBB Digital, part of the Kochie's Builders Brand and created to service the digital marketing needs of small business.

### Why

Digital marketing can be cost prohibitive, technically challenging and time heavy, for time poor business owners.

### How

A custom system to support your members | we build a mobile first website, provide ongoing digital education, training and support.

## Industry Specific Marketing

As digital marketers we know that content and imagery slows a website build down. That's why we will create industry relevant content for your members, enabling ease and speed when getting them online and we will build a customised website for your members..

## Our Strategy

Through our custom portal and unlike any other web builder on the market, we do the work for you. No tech skills required, no code, no htmls or metags - a few questions answered and the website is on its way to being built. Plus the added bonus of marketing and web support for as long as the website is with us.

**\*Association incentives available**
